

Who is Alec Pavlik?

I'm a lifelong Florida resident and Christian who loves America and believes following the Constitution would enable all of us to best pursue happiness and truth.

Personally, I hate conflict and subsequently politics, but I feel forced into it as our Constitution continues to be ignored; which jeopardizes the peace, liberty, and prosperity of us all.

Because of this, I've published videos, articles, and a paperback regarding these issues since I was 17 years old; some for my local newspaper and political party.

In school I studied Worldview, Film Production, Local Government, and Social Media Marketing. There's a lot more I could say, so if you'd like to read more check out:

Restore the Constitution.

The U.S. Constitution is the Supreme Law of the Land and regulates what the government can and can't do. Yet many members of Congress vote for bills that blatantly overstep the Constitution.

Some candidates will say these past violations can be improved upon, but an illegal system that is functional isn't any less illegal.

Restoring the Constitution does not mean we should improve upon sectors of government that do nothing but violate our rights and the Constitution. It means to abolish problems at their source and follow the Constitution as intended by the Founding Fathers.

**Save America.
Restore the Constitution.**

Write-In:

Alec Pavlik

U.S. House of Representatives
Florida District 6

Return Sanity to America

- Restore Constitutional Law

On the Issues

Why I'm Running

Issues Explained

Constitutionalism

Every member of Congress is sworn to uphold the U.S. Constitution, yet most have either willingly or ignorantly voted for bills that would violate it. This has produced "laws" that violate the Supreme Law of the Land. Many of these "laws" are to blame for presidential overreach, unjust regulations, and the near debilitating cost of living. As your Representative I would vote against every unconstitutional bill and do everything in my power to repeal past mistakes.

Pro-Life

Pro-2A

Pro-Borders

Pro-Immigration

The establishment in DC will not do this because they either fear upsetting their donors or are confident in their reelection. The only way voters can change this is by challenging the establishment politically (aka voting differently). I am running as a Write-In so I cannot be bought, as I am not here for power or influence. I am running to give YOU the option to challenge the establishment and say, "unless you take my life, liberty, and property seriously, my vote does not belong to you."

The 10th Amendment of the U.S. Constitution leaves any power not granted to the Federal Government to the States or the People. Following this would greatly reduce how presidents and even Congress affects our everyday lives.

With a return to the Constitution people and communities will have more liberty to spend and grow the way they see fit. And as independence produces responsibility, I believe we will see greater respect for life and a decline in firearm-related crime.

Under the U.S. Constitution the Federal Government ought to protect the States from invasion, but also must uphold the rule of law. An immigration system that is arbitrarily enforced is not ruled by laws, but by the opinions of flawed people. I would like to see a system that enforces our borders, but is also navigable for those who wish to legally immigrate to America.
